Fashion is a style of life
Trends in fashion change with
time and place, but the essence of
fashion is to be different and to
be the best in the class.

*Tradition is a style of life
Trends are fashion, change and pass, culture and values are
more global, different, and of course, we bring that change
to life in India.*

*Fashion is a style of life
Trends in fashion change and pass, culture and style
are global influences, and it is our duty to preserve
our identity in them.*

Good design is making something beautiful and
useful. Good design is making something more
valuable and meaningful."*

*Have made us special
Fashion is a language that's never dull, it's always in progress, it's
always. When a woman is in fashion, it's like she's in a world of her own,
it's a state of mind, and she's the one who's in it.*

आaawiya®

You make us special
Fashion is a language that never really goes silent in amongst us
When a piece is in fashion, it stays in the right and does
not go with the flow of things, but it stays for the reason you

The purest name label
Fashion is not something that exists in things only.
Fashion is in the way we do things, fashion is in all
and when the way we live, when it happens.
